

"Audit the Fed" Petition

Whereas: The Federal Reserve refuses to give a public accounting of the TRILLIONS in recent taxpayer-backed loans and fiat money pumped into the banking system; and

Whereas: Congress has the responsibility to force a public audit of the Federal Reserve, and the American people deserve to know how their tax dollars are being spent and the currency inflated; and

Whereas: Allowing the Fed to remain out of control and shrouded in secrecy clearly allows for abuse and the continued stealing of our tax dollars; and

Whereas: The Federal Reserve System itself leads to constant economic crises like the current housing crisis and the resulting chaos; and

Whereas: The Federal Reserve System forces fuel, food, housing, medical care and education costs upward meaning that everyone who is NOT on the government dole is forced to make do with less as the value of their money slowly decreases; and

Whereas: History shows us that riots, violence, and full-scale police states can result when people finally realize fiat money isn't worth the paper it's printed on and REFUSE to accept it;

Therefore Congresswoman Betsey Markey: I urge you to cosponsor Ron Paul's Audit the Fed Bill, H.R. 1207, and make every effort to seek roll call votes.
